History Curriculum Strand Map

Our History Curriculum is structured to ensure that pupils revisit key strands throughout their journey at Long Mountain CE Primary School. They will acquire specific knowledge but will also make connections between strands that help us make sense of historical events.

Our four key big ideas: investigate and interpret the past, build an overview of world history, understand chronology, communicate historically.

Our key strands: main events, settlements, beliefs, culture & pastimes, location, food and farming, travel and exploration, conflict, society & artefacts.
